

## Press Release

# Lumenisity® announces NPS Ltd as the first approved installer for CoreSmart® cable solutions in their global network

**22 September 2021, Romsey, UK:** Today, Lumenisity® Limited announces that [Network Planning Solutions Ltd](#) (NPS Ltd) are their first approved installer for hollowcore CoreSmart® cable deployments. NPS Ltd are a network planning and implementation outsourcing enterprise based in Kent and the City of London and have completed a number of cable deployments for a variety of customers including specialist HFT's, Carriers and Datacentre owners in the UK and Europe. Their engineers are fully trained and accredited in all aspects of field cable deployments and will support Lumenisity in offering hollowcore cables to Carrier networks, Hyperscalers and High Frequency Traders (HFTs).

Lumenisity provide deployable CoreSmart cable solutions using ground-breaking Nested Anti-Resonant Nodeless Fibre (NANF®) hollowcore technology to address the need for high-speed transactions and bandwidth increases in advanced communications systems. CoreSmart cable technology is designed to be backward compatible with existing networks and systems equipment. It can be spliced directly in the field by accredited installers with commercially available splicers.

Tony Pearson, VP Sales & Marketing said, "Lumenisity are currently developing a network of approved installers to help customers with optical fibre splicing and full cable deployments. We are very excited to be working with NPS Ltd as their expertise and excellent service will ensure we offer another level of support to our customers, while proving that we are continuing to mature as a business in the market."

Joe Dickenson, Managing Director of NPS Ltd said, "After carrying out many successful deployments for customers using Lumenisity cable solutions, we are delighted to officially be a part of the Lumenisity network and we look forward to working together in the future."

## About Lumenisity® Limited

Lumenisity was formed in early 2017 as a spin out from the University of Southampton to commercialise breakthroughs in the development of hollowcore optical fibre. The company has built a team of industry leaders and experts to realise their goal to be the world's premier high-performance hollowcore fibre optic cable solutions provider offering their customers reliable, deployable, low latency and high bandwidth connections that unlock new capabilities in communication networks. Lumenisity, NANF, Hollowcore TradeSmart and CoreSmart are registered trademarks of Lumenisity Limited.
